

Parts list:
All parts are in 3/4" threaded black gas pipe.

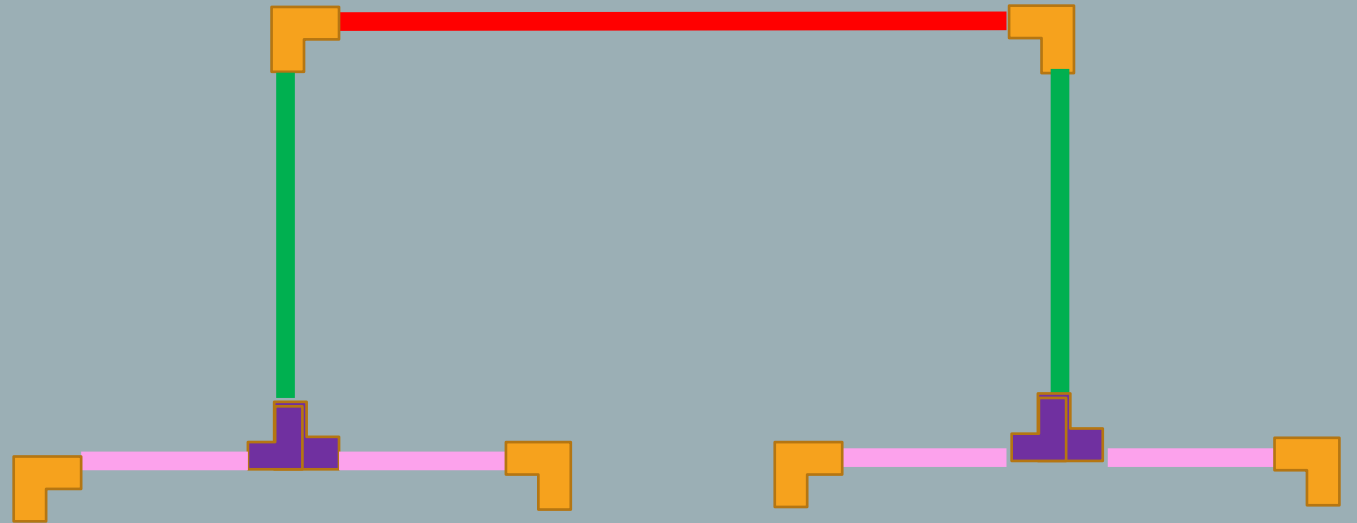

- 6 x 90 degree elbows (orange)
- 2 x "T"'s (purple)
- 4 x 8" straight piece (pink)
- 2 x 3' straight piece (green)
- 1 x 4' or 6' straight piece (red)

Instructions:

Clean all parts with a degreaser (they are greasy from the factory)

1. Screw green and purple together first and set aside
2. Screw orange and red together second
3. Screw greens to orange and red
4. Screw pink to purple
5. Screw last oranges to pink
6. Stand the whole thing up, turn pinks so they are sideways to red

Done

* For a full size barre, increase pipe diameter and all parts to 1-1/4". Increase length of "red" barre to 10'. 8' length works OK, but can feel a little crowded for ages 16 and up.*
